Kevin,

It looks like ECS is all set. Just have the individual check in with Helen or Jim when they arrive and let them know what they will be doing and where.

Thanks,

Stephen

Jim and Helen,

Christopher ECS our hazmat consultant would like to come by Friday to take some samples to see what may be hot and what is not. Does this work with your schedule. Christopher will be taking small samples of tile, insulation and other building materials. Please let me know.

Thanks,

Stephen

Kevin- Can we schedule ECS to do the field inspection for 830am on Thursday or Friday of this week....either date works, let us know what works with you and Umass staff to get ECS into areas..

Thanks Chris

Chris,

We are approved to move forward on this project at Morrill Building for the Western MA DPH. I am going to be doing some field work tomorrow to get this moving. Let me know when you are available to do some sampling. I will have a better idea of the materials and construction we are dealing with tomorrow. Maybe we can meet briefly after that to talk about the materials. Stephen Lobik is the PM from Umass in charge of this project. You should also arrange thru him a time to do your sampling.
